

SESSION – 22

CALCULATING PROFIT & LOSS

JENIFA RAYEE D

Profit & Loss Analysis Report

| Particulars                             | Observation                                                                    |
|-----------------------------------------|--------------------------------------------------------------------------------|
| Asset                                   | Bitcoin (BTCUSD)                                                               |
| Trade date                              | 1/08/2026                                                                      |
| Trade strategy used                     | Combined strategy                                                              |
| Trade status                            | Closed                                                                         |
| Entry price                             | 80,322                                                                         |
| Current/Exit price                      | 77,635                                                                         |
| Profit/Loss                             | Profit                                                                         |
| Profit/Loss amount                      | 2,687                                                                          |
| Was the original trading plan followed? | Yes                                                                            |
| Reason for Profit/Loss                  | Ethereum price is increased, So I sold it at a higher price and made a profit. |
| Key learning                            | I learned to follow the market signals more carefully.                         |
